

SELECTED PROJECTS BY SELAVIP FOUNDATION FOR THE YEAR 2016

Firstly, we would like to thank all those Organizations from Africa, Asia, Latin America and the Caribbean for the large number of projects that were submitted. It would have been ideal for SELAVIP to have chosen most of them since we understand that behind each initiative there are poor families who need urgent support to build or improve their dwellings and with that, return the dignity of their homes, where their families can grow and develop.

Nevertheless, as budgets for each year are limited, we have proceeded to select those projects that were adjusted to the objectives and costs within the application process of 2015, and as well as those that were presented in a complete and justified form.

The selection process has been a complex task for all of SELAVIP's team, but the qualitative and quantitative guidelines of evaluation had to be met which definitively determined the projects that were possible to finance for the year 2016. This is why we send our congratulations to those Organizations whose projects were chosen. These are shown in the table below.

All of those projects that were not granted can reapply in the financial application process of 2017 which will be brought forward to the first semester of 2016. With this, their selection will not be guaranteed, but they will be given another chance to complement it in order to fit in with the objectives of the application, costs and delivery of additional information.

We have to remind the selected organizations that the process of sending "Additional Background Data" will start now and whose formats will be sent during the next two months. This information has to do mainly with the list of families, adjustments of costs, delivery of the housing solutions' designs, planning of the projects' steps, photographic records and other necessary documents to sign the definitive agreement which include the general objectives of the initiative, the number of housing solutions, the people responsible for the organization, families and amount of money to be transferred.

The deadline for the execution of these projects will be the 10th September 2016, by which all Organizations must have sent their progress reports (whenever they are requested) and the Final Report.

To all of you, thank you very much for working with the most vulnerable families of your countries through which you are building a fairer world.
